IN THE CLAIMS

The pending claims are as follows:

1. (Previously presented) A method for reducing a number of non-inflammatory acne lesions comprising the step of topically applying a dermatological composition to the non-inflammatory acne lesions, wherein said dermatological composition comprises an active agent, and the active agent consists essentially of Dapsone.

Claims 2-3 (Cancelled).

4. (Original) The method of claim 1 wherein said dermatological composition comprises dissolved dapsone and microparticulate dapsone.

Claims 5-6 (Cancelled).

- 7. (Original) The method of claim 4 wherein said dermatological composition is a semisolid aqueous gel.
- 8. (Original) The method of claim 4 wherein said dermatological composition is a cream.
- 9. (Original) The method of claim 4 wherein said dermatological composition is a lotion.
- 10. (Original) The method of claim 4 wherein said dermatological composition is a suspension.
- 11. (Original) The method of claim 4 wherein said dermatological composition is an ointment.
- 12. (Original) The method of claim 4 wherein said dermatological composition is a spray.

Dkt: 1195.346US1 Doc. No.: 639926

13. (Original) The method of claim 4 wherein said dermatological composition further comprises an additive selected from the group consisting of a preservative, an antioxidant, a

fragrance, a colorant, and a sunscreen.

14. (Original) The method of claim 1 wherein said dermatological composition is a

semisolid aqueous gel.

15. (Original) The method of claim 1 wherein said dermatological composition is a cream.

16. (Original) The method of claim 1 wherein said dermatological composition is a lotion.

17. (Original) The method of claim 1 wherein said dermatological composition is a solution.

18. (Original) The method of claim 1 wherein said dermatological composition is an

ointment.

19. (Original) The method of claim 1 wherein said dermatological composition is a spray.

20. (Original) The method of claim 1 wherein said dermatological composition further

comprises an additive selected from the group consisting of a preservative, an antioxidant, a

fragrance, a colorant, and a sunscreen.

21. (Original) The method of claim 1 wherein said dermatological composition comprises

3% dapsone.

22. (Original) The method of claim 1 wherein said dermatological composition comprises

5% dapsone.

Claims 23-24 (Cancelled).
